President's Message—

OUR MEETING DAY & TIME HAS BEEN CHANGED TO THE 4th SUNDAY EVERY MONTH AT 2PM. The next meeting will be on the May 28th. We will have food at the meetings.

How do we get you to come back to the general meetings? Give us some ideas—please! We have tried changing the meeting day because you said you like to go to the bike nights in the area. Well that didn't work. Now we are going to try again by changing the meeting to a Sunday afternoon. We hope when you start your ride on Sunday, you will come by the Homestead and attend our meeting. We would like to know what you would like to see or hear at the meetings. Do you want a speaker? And if you do want informative speakers—on what subjects? How about a short meeting with a lot of fellowship afterwards? The officers of this chapter give a lot of their time, hard work and energy to this organization, so you guys could at least give an hour once a month to support them at the general meeting. I know meetings are usually boring but you usually sit longer in a doctor's or dentist's office. Seriously we need your support and input. We don't know what or how to plan events unless you get involved. We want to do things that you are interested in and will support.

Did you get to ride on our Freedom Ride? If not you missed a really good ride and great day. We rode about 150 miles round trip to a Revolutionary War Battlefield in SC. This was something different for us as we wanted to ride to one location with a stop for gas and lunch going down and a stop for gas coming back. We had a lot of compliments on the ride and as this was very positive, we are going to plan another one in the fall to the beautiful mountains of NC. One thing that we experienced that we need to correct. We had road guards helping us through the intersections. As you know these road guards are aware they could be ticketed for this but they are so concerned that we get through these intersections safely, they take that risk. When the road guards come back up through the riders, please move to the right hand side to let them get back up to the front so they will be ready for the next intersection. If you have never ridden in a group with road guards, just pay attention to what the more experienced riders do and everything will work out great. If you see a rider raise his/her hand with 1 finger pointed up—that means move to the right now—not later. We are looking out for your safety and also the safety of our road guards.

Our Easter Egg Hunt was a HUGE success and without much help from our members. What few members were there, did an awesome job. We had a big crowd of kids and their parents who played games, karaoke, and hunted nearly 800 eggs filled with toys, candy and money. I was disappointed that more of our members didn't help or attend with their kids and grandkids but we had a good day anyway. We want to make this something to build on for our biker family so we hope you will participate in our next family event. A good number of our members have been requesting that we do a family day every couple of months. With the success that we had, we are going to try just that, so if you are one of those members—we sincerely hope you will attend because it was your suggestion that got the ball rolling.

Sometimes (well most of the time) I don't think that our members or bikers in this area general realize just how important the CBA/ABATE of NC really is or if they realize all the things this organization has done for us in the past and doing for us now. I, for one, do not like people that have never ridden a bike telling us what we should or should not be doing or what laws should or should not be made for our benefit. We ride for our own pleasure. We know the risk and we know what works for us. It's that freedom that calls us to ride and we don't want to be bombarded with laws / rules that restricts our freedom.

As I am sitting here putting the final touches on this column, all hell seems to have broken loose. One of our CBA brothers has lost a son and for that we send thoughts and prayers to Willie "Snowball" Grier on Brandon's death. Another CBA brother and one of our special Southern Gentlemen Galvin "Junior" Bolen wrecked and is (at this time) on life support at CMC Main Charlotte. We pray for his healing.

On a personal note, Peewee's recent hospitalization has been a very trying time for us but you, my friends, have made that ordeal bearable because of the outpouring of love we have received from each of you. Your thoughts and prayers have been constant. We are so blessed to have you as our friends and family. The biker family is the best in the entire world. We deeply care about each other. Yes we fuss and fight but isn't that what family does? Love and peace to you. - Jill

VICE-PRESIDENT'S CORNER -

Most parts of the country are already feeling some heat in the 2017 riding season—lucky them! But even as we talk about the best strategies and types of gear for riding in hot weather, while staying relatively protected from the hazards of the road, it's also important to keep in mind other, more subtle hazards to your health. Make no mistake, no matter how tough you are, no matter how experienced a rider, no matter how good your physical condition is, if you don't respect the heat, it will knock you on your ass. We're not Doctors, but here are some tips we use for surviving a motorcycle tour through the summer heat:

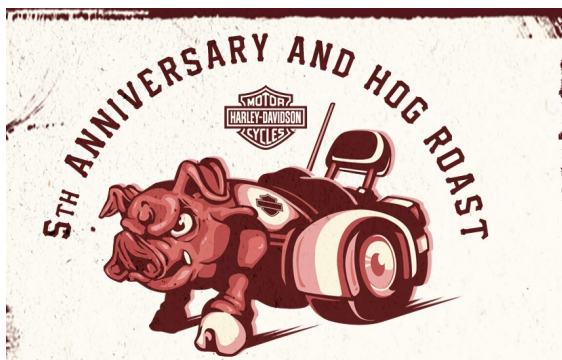

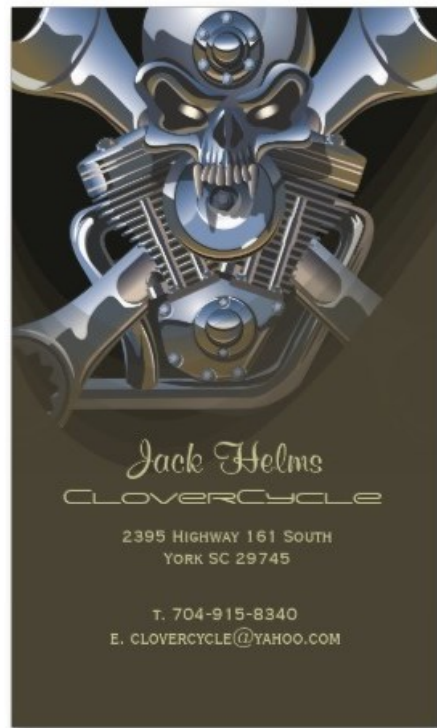

Watch very carefully for signs of Heat Exhaustion and Heat Stroke. Your body will send you signals that it's having trouble with the heat, which can include cramps, nausea, headaches, extreme fatigue, flushed or pale skin, dizziness, and heavy sweating. Left unchecked, you can develop Heat Exhaustion, which is a form of mild shock. If you're feeling these symptoms, it's time to pull over, rehydrate, rest and recover for as long as it takes. Don't be in a rush to get back on the bike – sometimes a rider doesn't want to inconvenience their friends by holding things up. How long do you think a trip to the hospital will hold up the ride?

Bring more water than you think you'll need. Water is vital for keeping the body cool, but it also is necessary for digestion, for flushing toxins out of your body, and for lubricating your joints. It also cushions your organs and tissues, so when you get dehydrated, your body just won't work properly, things will start to shut down, and you'll physically crash.

Include stops on your route where you can cool off. One of the best ways to rejuvenate yourself is by getting out of the heat, into a cooler environment. You meet interesting people in rural convenience stores, and many have large ice freezers outside. We place our helmets in the freezers while we go inside for a cool drink. A quick stop can enable you to ride another 45 minutes even in the worst heat, so plan your ride along roads that have services and conveniences no more than 1/2 hour apart.

Dress properly and keep your skin covered. Seems like simple, advice, but it's amazing how many people don't follow it. Any areas of skin that are exposed will be much harder to cool, as the sweat will evaporate from the air rushing over it at speed. This means you'll dehydrate faster. Remember ride for the slide not the ride.

Please enjoy the upcoming summer, Be safe

Also please continue contacting your Senators and House of Representatives Reps regarding the use of “chip seal” on the Blue Ridge Parkway and that you do not support this type of material being used for resurfacing the roads on the Parkway.

Did you make a pledge for the Homestead? Are you keeping that pledge? We have a number of people who made a pledge to help keep the Homestead afloat but have never sent any money. Are you one of those? Please honor your pledge. You can make your payment online by going on the Gaston County CBA website www.gastoncountycba.com and click on the "DONATE" tab or you can send a check to Pete McGinnis, PO Box 22, Lowell NC 28098. Make the check out to Jill Stillwell. You can also donate when you come to the Homestead. We need your support. Every month when the rent and utilities are due, we contemplate shutting the doors. We really don't want to shut the doors, but if the bikers in this area don't start supporting the Homestead, that's what is going to happen and very soon. We hate to be so blunt but it is what it is. If we have to close the doors, everybody is going to ask "what happened?" And we are going to reply "it's sad but well you didn't support it and that's what happens when you do not support something that benefits the area bikers."
