

Report Biker Profiling & Discrimination

The Concerned Bikers Assoc./ABATE of NC has developed an easy way for you to document and report any motorcycle related discrimination or profiling issues you may have. These forms need to be completed in a timely manner and returned to CBA as soon as possible. If you have any questions please contact the CBA Legislative Director at davidnterwilliger@outlook.com. We will be compiling this information to make it easier to track those areas where there are problems to deal with on an administrative level. Please distribute this form/link to every motorcyclist you know. This information may be presented to state and/or federal legislators, as well as police and state and/or federal DOT Administrators. It will be used to document biker profiling and discrimination activity. None of YOUR personal information will be forwarded. Only the CBA Legislative Director will have access to your personal info in order to contact you about your case. We will provide updates if necessary about any action taken. Please provide as much information as possible, attaching information where necessary. The profiling/discrimination could be by a business or other organization or by law enforcement or other entities. Thank you for helping to alleviate this problem.
